

压接模具

CRIMPING APPLICATOR

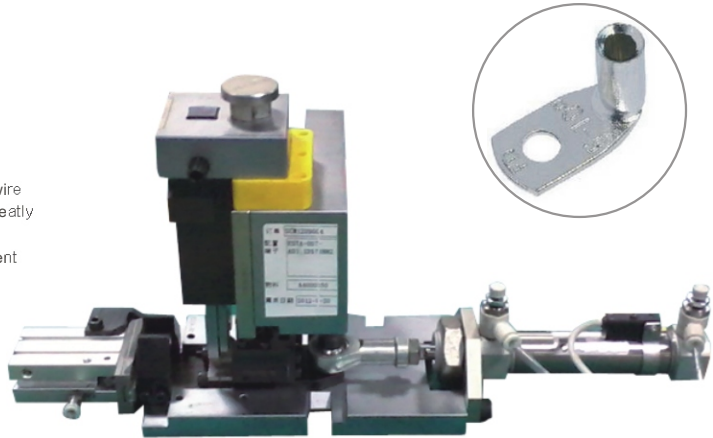

ESTA型单粒端子压接模具

ESTA Single Terminal Crimping Applicator

» 产品介绍 Introduction

- 适应于单粒端子的压接，作为单粒端子压接模具的升级版出现；
- 模块化结构，压接组件可做为单独组件订购，让成本进一步的压缩；
- 采用气动抽拉结构，端子、电线的放置位置远离压接区，视野更加开阔，操作更加方便，极大的提高了工作效率和工作的舒适程度；
- 气动夹线装置，确保压接位置的稳定性和一致性；
- 安全传感器的加装，极大提高了作业的安全系数；
- 每个零件都有自己的唯一标识。

- As a new generation of crimping, suitable for crimping single terminal,
- modular structure, crimp assembly can be ordered for the individual components, let the cost further compression;
- It adopts pneumatic draw structure, location, away from the terminal wire crimping area, vision is more open, the operation more convenient, greatly improves the work efficiency and comfort;
- With pneumatic clamping device, to guarantee the stable and consistent crimping;
- With safety sensor, greatly improves the safety;
- Each part has a ID

» 技术参数 Specification

型号	Type	ESTA
行程	Stroke	40mm
(C.H 和I.H.)绝缘压接高度调整精度/范围	CH/IH regulating precision / range	0.02mm/2mm
料带形式	Feed Type	单粒Single
闭合高度	Shut Height	135.8mm
适应线径	Wire Size	0~16mm ² (Max)
适应端子料厚	Terminal Thickness	1.2mm (Max)
重量	Weight	4Kg
外形尺寸	Dimension(mm)	W122×H155×D335
