

HBQ-071 型热缩管收缩机

HBQ-071 Heat-shrinkable Tubing Machine

» 产品介绍 Introduction

与传统的热风枪相比，HBQ-071型热缩管收缩机具有如下优点：

- 低故障、高效率、省电、操作简便；
- 是桌面型设备，可持续运转，便于日常的清洁与维修；
- 采用红外发热元件，将热量辐射于热缩管使其收缩；
- 产品一致性好、收缩均匀而紧致；
- 发热元件的温度和加热设备的移动速度均可精确调节，通过合理设定，可达到最佳紧缩效果。

Compared with the traditional hot air gun, HBQ-071 Heat-Shrinkable Tubing has the following advantages;

- Low failure, high efficiency, energy-saving, easy to operate;
- A benchtop device, sustainable operation, easy to facilitate routine cleaning and maintenance;
- Infrared heating element, heat radiation in the heat-shrinkable tube to make shrinkable;
- Product consistency is perfect, shrinkage is even and compact;
- The temperature of heating element and speed of heating equipment can be precisely adjusted by reasonable setting , to achieve the best effects.

» 技术参数 Specification

型号	Type	HBQ-071	最大功率	Max Power	2100W
最大热缩管径	Max Shrinkable Diameter	25mm	加工速度	Processing Speed	25pcs/min
电源	Power Supply	AC220V/50Hz	最大热缩长度	Max Shrinkable Lengtht	120mm
最高工作温度	Max Temperature	600°C	外形尺寸	Dimension(mm)	W1100×D210×H350
